

WHEN TECHNOLOGY MEETS CRAFTSMANSHIP

Structural Frame - More Glass • 3/4" & 1/2" build in return for adding jamb extensions (Not available in 2000 Series)
• Multipoint lock • Encore hardware • Available in 15 standard colours

2000 SERIES HUNG

• 3 1/4" jamb
(Available in white only)

2000 SERIES CASEMENT

• 3 1/4" jamb
(Available in white only)

4000 SERIES HUNG

• 3 1/4" jamb
• Available in interior wood grain

5000 SERIES CASEMENT

• 3 1/4" jamb
• Available in interior wood grain

6000 SERIES CASEMENT

• 4 5/8" jamb
• Matching Aluminum Stock

7000 SERIES CASEMENT

• 4 5/8" jamb
• With integrated brickmould

8000 SERIES CASEMENT

• 4 9/16" jamb
• Superior paint finish
• Extruded aluminum exterior

Chroma VX technology is based on a specific blend of urethane and acrylic polymers. This proprietary process provides a beautiful rich, low gloss, smooth finish that will last throughout the years.

Chroma VX, an exclusive technologically advanced formulation enhances weatherability and is compliant with the highest standards of AAMA.

Our versatile colour system allows you to add any of our window colours (below) to your window's exterior, while leaving the interior finish a neutral white.

White K-69	Ivory K-08	Matchcoat Beige K-75	Khaki K-96	Cactus K-77	Charcoal K-77	Hunter Green	Chocolate
Commercial Brown K-12	Rustic Granite K-55	Black K-15	Metallic Silver *	Metallic Pewter *	Metallic Gray *	Metallic Graphite *	* PREMIUM COLORS

(Codes refer to available matching aluminum flatstock)

vertex3

3 technologies in 1 high performing window

Vertex3 High-Performance Window Technology Is Engineered To Provide **Superior Thermal Efficiency, Superior Glass Clarity And Superior Air Infiltration Protection.**

1

ēvolv

ēvolv Glass Technology is a coating placed on the 4th glass surface (interior of the house) that redirects escaping UV rays back into the home. Not only does **ēvolv** greatly increase a window's U-Value, but it offers better light transmittance and less reflectance. A double pane window with the performance of a triple pane thanks to **ēvolv**.

You can actually feel the difference by staying close to **ēvolv** windows as they will redirect heat as opposed to a wall that will absorb it. **ēvolv** is resistant to surface cleaning products and will not fade with time.

2

EC TECH

ECTech naturally clean glass is a surface 1 coating (exterior of the house) which absorbs the sun's UV light to loosen dirt so water can rinse it away. The patented **ECTech** coating rids itself of many non-mineral deposits (i.e. adhesive residue, fingerprints, pollens, resins, bird droppings, suction cup marks, etc.).

3

KP Building Products has partnered with **Owens Corning®**, a world leader in insulation products, to offer the exclusive **Owens Corning®** Air sealing technology. This technology is designed to improve your insulating value and make it as resistant as possible, and offering a **24% improvement on air infiltration**. KP Building Products relies on this strong association built with **Owens Corning®**, the most trusted name in home insulation in North America, and an indispensable part of the Vertex3® system.

KP WINDOW WARRANTY

- Lifetime coverage on accidental glass breakage.
 - Lifetime coverage on all hardware.
 - Lifetime coverage on all seal failure.
- Lifetime coverage on frame vinyl & vinyl sash components.
 - Fully transferable at no extra charge.
 - Non-prorated, full lifetime coverage.
